

MS2
MEMBER OF HAINZL GROUP

We are proven specialists in the development and implementation of customized testing technologies and tailored **testing concepts** for industry.

From the initial design to after-sales service: Let our expertise and many years of experience contribute to your success.

TESTED SOLUTIONS

FOR GREAT RESULTS

PRODUCTS

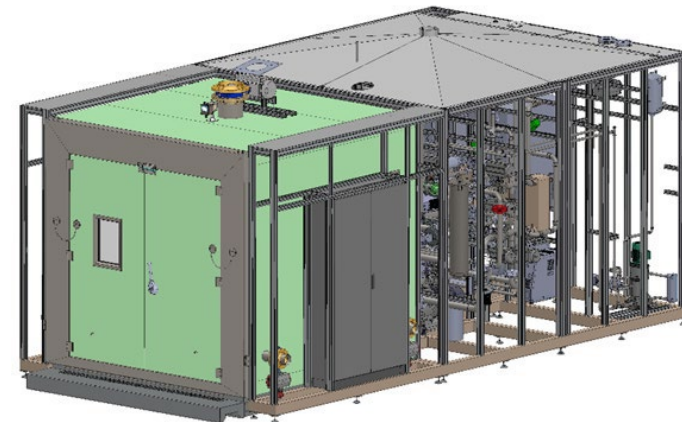

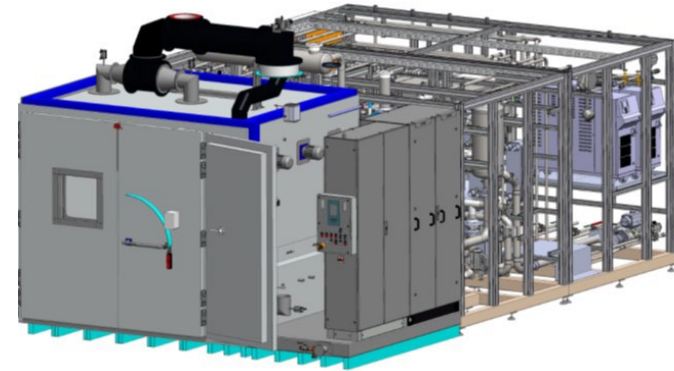

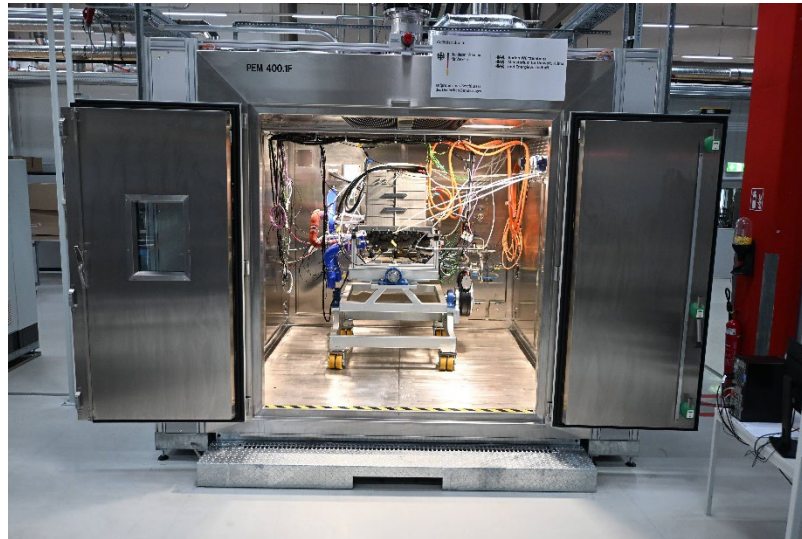

OUR TESTING TECHNOLOGY FOR:

- // Fuel cells
- // Fuel cell systems
- // Electrolysis
- // Components for hydrogen / SAF / methanol / NH₃
- // System Peripherals
- // Heat pumps / heating systems
- // with corresponding service and calibration

PRODUCTS

TESTING OF FUEL CELLS

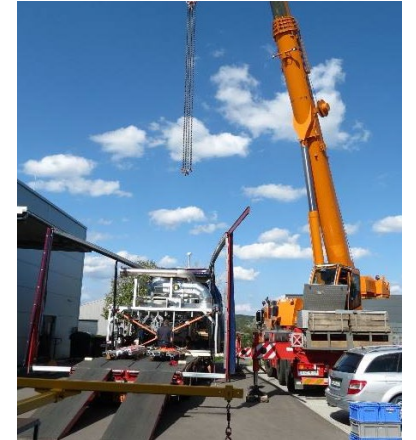

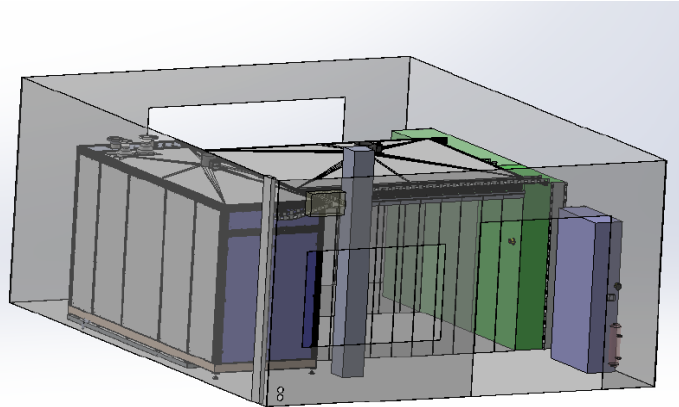

// Product range from 0.05 kW to 570 kW

PRODUCTS

SYSTEM TESTBENCHES

// Product range from 50 kW to 1200 kW

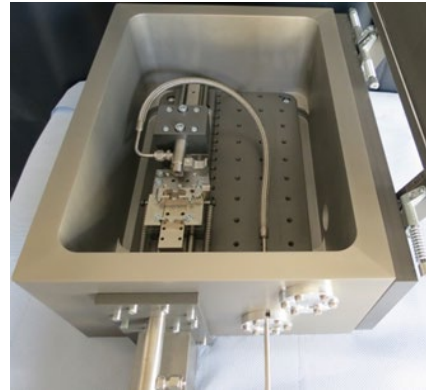

PRODUCTS

SYSTEM PERIPHERALS

// Product Range from 50 kW to 570 kW

// Tank / Valve / Material

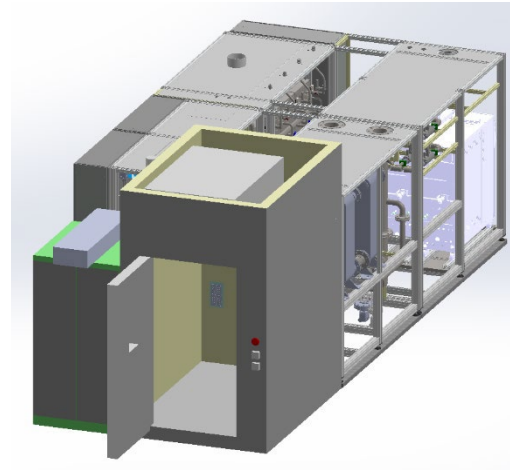

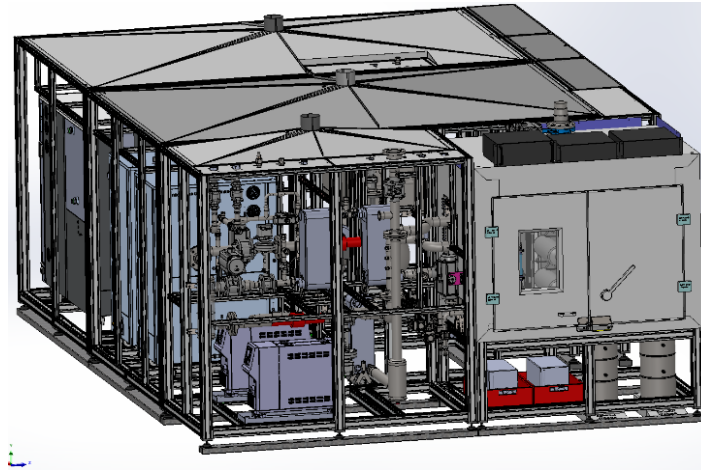

PRODUCTS

SYSTEM PERIPHERALS

// Product Range from 50 kW to 570 kW

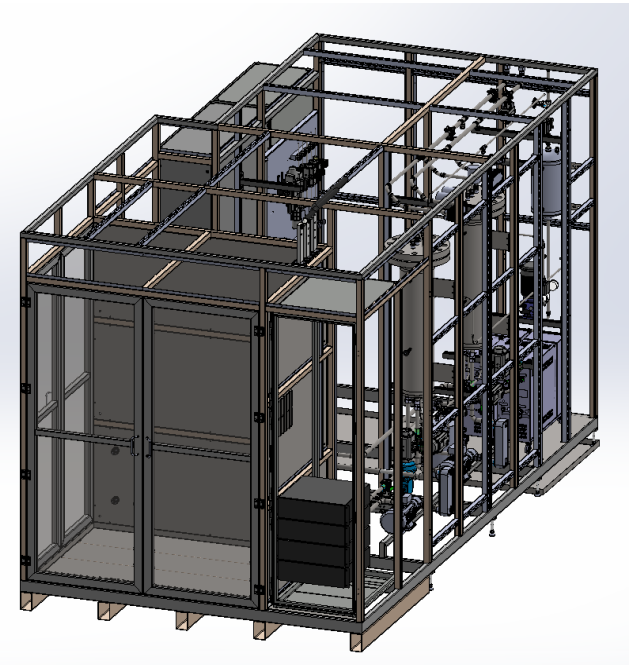

// Blowers / Anode circuit / Humidifiers / Analytic / Fuel Supply

PRODUCTS

ELEKTROLYSER

// Product Range AEM / AEL / PEM from 10 kW to 200 kW

PRODUCTS

HEAT PUMPS / SYSTEMS

// Product Range: 25 kW to 70 kW
