

Heavy-Duty Hydrogen Fueling Solution

Proven AFIR-ready solution for heavy-duty hydrogen corridors.

200 km TEN-T deployment | ≥ 1 t/day | 350 & 700 bar | Public Access

Corridor-Ready Infrastructure

- » Continuous high-throughput operation
- » Back-toBack fueling capability
- » Modular expansion: 1 to 2 to 3+ t/day
- » Remote monitoring & diagnostics
- » Performance-validated efficiency
- » Redundant compression ensuring high system availability
- » Cybersecure architecture (ISO/IEC 27001 certified)

Designed for phased TEN-T corridor deployment
